Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

Opening its doors in 1899, The Shoe was one of the first three international companies ever created. Within the first year, it had set up locations in the United Kingdom, France, Germany, Canada, and Latin America. The Shoe quickly gained a positive reputation as a service-oriented and employee-oriented company. Its employees were some of the highest paid in the nation, and its innovative process reduced shoe prices substantially, making them much more affordable for customers.
